Ash, due to a conversation with Cam and Mike about how the PRP is somewhat lame at this point, we would like to add the sentence below... it would meet what Cam is looking for as a "disclaimer"

Any concerns about us adding this text to the front page of the PRP prior to sending it out to the GLEC?

This preliminary draft was prepared by the binational GLEC Secretariat [with Annex Co-Leads?] for the purpose of providing GLEC members an opportunity to review the document prior to the June, 2016 GLEC meeting. While the draft document contains much of the material that will be included in the final draft, the Parties expect that the narrative portions of the document will be expanded and improved.
